## **Section 1.**

(a) As used in this section, the following words shall, unless the context requires otherwise, have the following meanings:

(i) "Code" means the federal Internal Revenue Code as amended and in effect for the taxable year.

(ii) "Intangible expense" includes (1) expenses, losses and costs for, related to, or in connection directly or indirectly with the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property to the extent such amounts are allowed as deductions or costs in determining taxable income before operating loss deductions and special deductions for the taxable year under the Code; (2) amounts directly or indirectly allowed as deductions under section 163 of the Code for purposes of determining taxable income under the Code to the extent such expenses and costs are directly or indirectly for, related to, or in connection with the expenses, losses and costs referenced in (1); (3) losses related to, or incurred in connection directly or indirectly with, factoring transactions or discounting transactions; (4) royalty, patent, technical and copyright fees; (5) licensing fees; and (6) other similar expenses and costs.

(ii) "Intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets and similar types of intangible assets.

(iv) "Related entity" means (1) a stockholder who is an individual, or a member of the stockholder's family set forth in section 318 of the Code if the stockholder and the members of the stockholder's family own, directly, indirectly, beneficially or constructively, in the aggregate, at least 50 per cent of the value of the taxpayer's outstanding stock; (2) a stockholder, or a stockholder's partnership, limited liability company, estate, trust or corporation, if the stockholder and the stockholder's partnerships, limited liability companies, estates, trusts and corporations own directly, indirectly, beneficially or constructively, in the aggregate, at least 50 per cent of the value of the taxpayer's outstanding stock; or (3) a corporation, or a party related to the corporation in a manner that would require an attribution of stock from the corporation to the party or from the party to the corporation under the attribution rules of the Code if the taxpayer owns, directly, indirectly, beneficially or constructively, at least 50 per cent of the value of the corporation's outstanding stock. The attribution rules of the Code shall

apply for purposes of determining whether the ownership requirements of this definition have been met.

(v) "Related member" means a person that, with respect to the taxpayer during all or any portion of the taxable year, is: (1) a related entity, (2) a component member as defined in subsection (b) of section 1563 of the Code; (3) a person to or from whom there is attribution of stock ownership in accordance with subsection (e) of section 1563 of the Code; or (4) a person that, notwithstanding its form of organization, bears the same relationship to the taxpayer as a person described in (1) to (3), inclusive.

(vi) "Valid business purpose" means one or more business purposes, other than the avoidance or reduction of taxation, which alone or in combination constitute the primary motivation for a business activity or transaction, which activity or transaction changes in a meaningful way, apart from tax effects, the economic position of the taxpayer. The economic position of the taxpayer includes an increase in the market share of the taxpayer or the entry by the taxpayer into new business markets.

(b) For purposes of computing its net income under this chapter, a taxpayer shall add back otherwise deductible intangible expense directly or indirectly paid, accrued or incurred in connection with one or more direct or indirect transactions with one or more related members.

(c) (i) If the related member was subject to tax in this state or another state or possession of the United States or a foreign nation or some combination thereof on a tax base that included the intangible expense paid, accrued or incurred by the taxpayer, the taxpayer shall receive a credit against tax due in this state in an amount equal to the higher of the tax paid by the related member with respect to the portion of its income representing the intangible expense paid, accrued or incurred by the taxpayer, or the tax that would have been paid by the related member with respect to that portion of its income if (1) that portion of its income had not been offset by expenses or losses or (2) the tax liability had not been offset by a credit or credits. The credit so determined shall be multiplied by the apportionment factor of the taxpayer in this state. However, in no case shall the credit exceed the taxpayer's liability in this state attributable to the net income taxed as a result of the adjustment required by subsection (b).

(ii) The adjustment required in subsection (b) shall not apply to the portion of the intangible expense that the taxpayer establishes by clear and convincing evidence meets both of the following requirements: (A) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person that is not a related member, and (B) the transaction giving rise to the intangible expense between the taxpayer and the related member was undertaken for a valid business purpose.

(iii) The adjustment required in subsection (b) shall not apply if the corporation and the commissioner agree in writing to the application or use of alternative adjustments or computations. The commissioner may, in his/her discretion, agree to the application or

use of alternative adjustments or computations when he/she concludes that in the absence of such agreement the income of the taxpayer would not be properly reflected.

(d) Nothing in this subsection shall be construed to limit or negate the commissioner's authority to otherwise enter into agreements and compromises otherwise allowed by law.

(e) Nothing in this section shall be construed to limit or negate the commissioner's authority to make adjustments under section \_\_ [i.e., the state's transfer pricing authority, if any].
